SHOW RING CODE OF ETHICS

The showing of registered dairy cattle is an important part of the promotion, merchandising and breeding program of many breeders. Additionally, it is important part of the program of the various dairy breed associations to stimulate and sustain interest in breeding registered dairy cattle. This relates to both spectators and exhibitors. In this connection, the Purebred Dairy Cattle Association, the Iowa PDCC and the Iowa State Fair believe that it is in the best interest of the breeders of registered dairy cattle to maintain a reputation of integrity and to present a wholesome and progressive image of their cattle in the show ring.

It is recognized there are certain practices in the proper care and management of dairy cattle that are necessary in the course of moving dairy cattle to and between shows that are advisable to keep them sound, healthy state so they might be presented in the show ring in a natural and normal condition.

Conversely, the following practices or procedures are considered unacceptable in the show ring. Also the following practice or procedures are considered unacceptable and defined as being fraudulent and/or unethical in the show ring of registered Dairy Cattle.
